Aditya Sharma

Senior SWE @ MindFire Solutions | .NET, Angular, Spring Boot,
Kotlin, MySQL, PostgreSQL, Docker, K8s
Mathura, Uttar Pradesh, India

Summary

As a dedicated and passionate Software Development Engineer, I thrive on creating innovative solutions and leading projects to success. With a solid foundation in Computer Science and Engineering from GLA University.

Here is my resume <https://flowcv.com/resume/h4ofa5v34d>, and I can be directly contacted at aditya.sharma.11072001@gmail.com

Professional Experience:

I am currently working as a Software Engineer 1 at Intellewings, here are some of my achievements ->

- Spearheaded the development of an AML Project for a major insurance company, managing a team of 4 to drive project completion.
- Developed FINNET2, a new fraud reporting format used by 80% of enterprise clients.

Enhanced user experience through deliberate UX studies and iterative improvements based on client feedback.

- Acted as the Security and DevOps anchor for the Transaction Monitoring Team, implementing VAPT, InfoSec improvements, and secure POST endpoints via payload encryption. Also, created Dockerfiles, K8s deployments, and pipelines for seamless software deployment.

- Rebuilt and upgraded main components of the frontend, improving maintainability and Core Web Vitals.
- Upgraded Angular frontend from v7 to v15, migrating design to Material UI.
- Developed a customer screening page with API integration and integrated features from sister projects into the main application.

Technical Skills:

Frontend: Angular, Material UI, React, Next.js

Backend: .NET, Spring Boot

Database: MySQL, PostgreSQL

DevOps: Docker, Kubernetes, CI/CD Pipelines

Professional Attributes:

Strong leadership and team management skills, driving projects to successful completion.

Curious and open-minded, always eager to learn and adapt to new challenges.

Excellent critical thinking abilities and a passion for mentoring others.

My journey in software development has been fueled by a deep curiosity for learning and a commitment to delivering high-quality solutions. I am excited to connect with like-minded professionals and explore new opportunities for growth and collaboration.

Experience

Mindfire Solutions

Senior Software Engineer

July 2025 - Present (6 months)

Noida, Uttar Pradesh, India

- Worked on internal employee training tracker and sales contract management system
